

IRO Certificate #4599

NOTICE OF INDEPENDENT REVIEW DECISION

September 13, 2002

Re: IRO Case # M2-02-0893-01

Texas Worker's Compensation Commission:

___ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule 133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IRO's, TWCC assigned this case to ___ for an independent review. ___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, ___ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a Doctor of Chiropractic who is licensed by the State of Texas, and who also is a certified strength and conditioning specialist. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to ___ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The ___ reviewer who reviewed this case has determined that, based on the medical records provided, the requested treatment is not medically necessary. Therefore, ___ agrees with the adverse determination regarding this case. The reviewer's decision and the specific reasons for it, is as follows:

History

The patient was injured on ___ while stepping out of a truck. He had surgery on his lower back 7/9/01, intensive conservative care prior to the surgery, rehabilitation and work hardening program.

Requested Service(s)

Work hardening program x 20 sessions

Decision

I agree with the carrier's decision to deny the requested additional four weeks of work hardening.

Rationale

The FCE on 5/10/02 indicates that the patient had gained his medium work level status with the ability to lift an average of 55 pounds from the floor after the initial four weeks of work hardening program was completed. The patient has met or exceeded the goals of work hardening, and additional rehabilitation, conservative treatments or work hardening do not appear appropriate at this time. A home-based exercise program will be sufficient.

This medical necessity decision concerning the requested treatment by an Independent Review Organization is deemed to be a Commission decision and order.

YOUR RIGHT TO REQUEST A HEARING

Either party to this medical dispute may disagree with all or part of the decision and has a right to request a hearing.
